

## Sustainability report FY2022 – executive summary

"Our actions today will power a better and lasting tomorrow"

FYI is contributing to a sustainable future.

From reducing our own environmental impact, to partnering to improve our new innovative, sustainable process for our end-markets that answer our stakeholders' needs, sustainability is embedded in our growth strategy, our values and in how we define our future success.

Focus area	IMPROVE		GROW	ENGAGE
	Health, Safety and Environment programs	Increasing energy efficiency and sourcing low carbon energy	Sustainable innovations	Inclusion and diversity Learning and development Community engagement
2025 Targets	Safety Ambition: Zero injuries, waste, and harm	Carbon emissions reduce by 25% Low carbon energy increase to 60%	Bio-based, biodegradable, and natural product offerings  Sustainable solutions	People development

### 2022 - Q3 highlights

- The company improved its ESG rating to 23.8 from 28 as the original rating. The Company ranks 5 out of 149 Diversified Metals Industry and 3 out of 32 in the Aluminum sub-industry, which is the 4<sup>th</sup> and 7<sup>th</sup> percentile respectively.
- The Company has appointed Dr Sandy Chong, an ESG specialist, as a non-executive Director.
- Dr Chong will guide the company towards ESG excellence.
- The pillar Governance has been strengthened with the appointment of Dr Chong.
- The Future Battery Industries Cooperative Research Centre's (FBI-CRC) Legacy project published the project outcomes. The results indicated that some of the Company's waste may be developed into an economic\ally profitable by-product.
- The discussions with a number of parties with regard to supplying renewable energy for the project is ongoing.
- Formation of the ESG Committee and acceptance of the ESG Charter by the board
- Alignment of ESG targets with Corporate purpose and mission
- Communication strategy of ESG goals with key stakeholders, including website development and corporate announcement.
- Development of ESG roadmap for business integration, Preparation of financial and social disclosures for ESG programs
- The Company's website has been updated to include ESG.

### ENVIRONMENT

	Unit	Design	2019	2020	2021	2022
<b>Company carbon footprint: Cradle-to-gate</b>						
Direct emissions	kton CO <sup>2</sup> _eq	na	0	0	0	0
Indirect emissions	kton CO <sup>2</sup> _eq	na	0	0	0	0
Scope 3 upstream emissions	kton CO <sup>2</sup> _eq	na	0	0	0	0
Total			0	0	0	0
Direct emissions, covered by emissions-limiting regulations	% of Direct emissions	na	0%	0%	0%	0%
<b>Product carbon footprint: Operational emissions</b>						
Direct emissions	kton CO <sup>2</sup> _eq	4423	0	0	0	0
